Dear Sir/Madam,

My name is David Samuyiwa, I am writing this letter to you as I would find it to be an honour to work within your organisation in a senior position. I am very passionate about education and helping young pupils of all ages, cultures and backgrounds to maximise their talents and reach their full potential. In combination with my BA degree and multiply other certificates and diplomas. In the summer of 2019, I completed my Masters Degree in Education and Leadership which will equip me with more skills and knowledge which I could bring into your school.

I am born in 1972 and raised in London/England. I have an international background of life experience, work experience and cultural experience. I have been living in Sweden since 2005 and during these years and I have a very good knowledge of the language and culture here in Scandinavia. Due to my work experience, I also have a good grasp of Spanish which I am improving upon on a weekly basis.

In my spare time, I like to spend time with my children, reading, writing, working on my health and fitness, cooking and eating good food and watching films. Enclosed with this short letter is a more extensive profile of myself, which contains my work history, academic history and life history, also enclosed is my C.V.

I hope that you will find that my knowledge and skills will be an asset to your school and I am looking forward to hearing from you in the near future.

Thank you for your time.

Best regards
David Samuyiwa

References

Jonathan Goodair

Personal Trainer for Madonna, Gwyneth Paltrow, Cate Blanchett, Stella McCartney och många fler.

David's commitment to his clients, high level of expertise and motivational skills are exceptional. This combined with his impeccable customer service, extensive knowledge, business and organisational skills make David unequivocally a massive asset to the education, health and fitness industry.

David Leinar

Team Captain ÖIS Fotboll Team

DS by David Samuyiwa have done an excellent job in the fall of 2011 with ÖIS football A team. He has a very professionally and accurately performed, both physical and mental exercises which led to ÖIS results on the football quickly improved after that David worked with the team. I can warmly recommend others to use David's knowledge and his passion and desire to make a difference is something that really does just the difference of teams and athletes such as ÖIS!

Beverly Williams

One of the world's most famous and successful interior designer. Has among other things worked on projects for the Royal families and various celebrities.

Apart from David's extensive knowledge, professionalism and commitment to transforming your body with his diverse creative training methods, he is easy going, wonderfully friendly, interesting... and interested.... person. I think he is just fab

David Morgan-Hewitt

Managing Director at The Goring; One of Queen Elizabeth II and the royal family's favorite Hotel.

David has worked with me as a personal trainer for over two years. I have always found him to be extremely professional and attentive. He is also a very personable and gregarious man who obviously has good relationships with many of his other clients and business partners. I would personally recommend him to you as a conscientious and serious professional.

Jenny Berggren

Former Lead Singer in Ace of Base, Solo Artist and Writer

The training with David gives positive effects in body and soul!

PROFILE PRESENTATION

PRESENTATION I have been working in the field of motivation, inspiration, leadership, teaching, business, coaching, counselling and psychology since 1989. In my BA Hons degree, I covered and gained valuable knowledge in areas such as psychology, mental training, leadership, history, politics, sport psychology, coaching, child behavior, business, entrepreneurship, philosophy, literature, management, mindfulness, cognitive therapy, counselling and physical training. I speak three languages with English as my mother tongue with a good grasp of both Swedish and Spanish. In the summer of 2019, I completed my Masters Degree in Education and Leadership. I have three children and my residence is Gothenburg/Sweden.

People always ask how did I start, well it started for me way back in 1984, when my school sports teacher Mr Frank Dick, came to me and said David you have great leadership qualities I want you to be the captain of our school football team and put us back on top. That's where it all started, from the age of 12, I was picked out to do something I never done before, I was given autonomy, authority, responsibility and people to lead. My learning started very young and after decades of learning,

I can tell you one thing, I'm still learning! I'm in my fourth decade now of leadership and it's been a journey I could never have thought possible, I have travelled the world, I have competed for my country in Athletics, I have lived in four continents, I have given lectures in 15 countries, I have built (along with a team of great people) four successful businesses. I have educated over 6000 people and motivated and inspired 1000s more and I'm still hungry! In my career, in its various roles and diversities, I have amassed over 80 000 hrs over practical experience in my role as a leader, coach, mentor, motivational speaker, teacher and counsellor.

Why am I still hungry? Why am I still motivated after all these years? Why? I tell you why because I have talents, gifts and skills that have been given to me, to me and I must use them to their maximum capacity. Many years ago I decided I realized that my purpose in life was to Educate, Equip and Empower everyone that I had the opportunity to spend time with. So through hard work and persistence, I have come to a place where I can take the opportunity that I have been given and make my dream a reality!

I will say this with all humbleness, but I really believe that my purpose in life is to take you, your team, your business, your career and your growth to levels you would not think possible. It doesn't matter where you maybe be starting from, what happened to you in the past, what you maybe going through in the present, just give me a couple of hours with you, your sports team, your school, your students, your sales team, your juvenile delinquents, your patients and I promise you that I will make a positive impact that should bring about a transformation in the dimension that they are in. I will educate, equip and empower whoever is in front of me to succeed, to overcome and above all to be a better and more productive person.

I look forward to having the opportunity of speaking and sharing with you.
Thanks / David Samuyiwa
